Paint runs through our veins.

# ADURO SOFTMATT – THE MATT VELVET ONE

Top protection thanks to the latest raw materials.

**Versatile. Durable. Reliable.** Aduro Softmatt is a solvent-based 2C matt paint that can be used universally as top coat in furniture and interior design. It creates a uniform and natural looking deeply matt surface and a velvety feel. Thanks to its recipe using new and innovative raw materials, Aduro Softmatt has very high scratch resistance and durability. Moreover, special UV filters protect the surface from premature yellowing or fading.

## YOUR BENEFITS

- // Natural, transparent look with reliable protection
- // Deep matt, uniform appearance
- // Velvety feel
- // High chemical and mechanical resistance thanks to innovative raw materials
- // Lightfast and with very good light protection effect
- // Protects the wood ground and wood stain from premature yellowing and fading

## APPLICATION AREAS

- // For the coating of surfaces in furniture and interior design exposed to high levels of stress
- // Application areas II – IV in accordance with ÖNORM A 1610-12
- // For the production of deep matt, very scratch-resistant coatings in all interior design applications
- // For low flammability or flame-retardant systems
- // In combination with a base coat suitable for the coating of surfaces bleached with hydrogen peroxide
